SERUM

PDRN
EP:DS+B3

POLYDEOXYRIBONUCLEOTIDE
SERUM

INSTRUCTIONS AND INFORMATION

PRESENTATION

5 x 5 ml Vials

INGREDIENTS – INCI

Aqua, Polydeoxyribonucleotide (PDRN), Niacinamide (Vitamin B3), Glycerin, Butylene Glycol, Phenoxyethanol.

INDICATIONS

REGENERATIVE COMPLEX

For the treatment of skin ageing, dullness, hyperpigmentation, inflammation and impaired barrier function. Ideal for use on compromised, acne-prone, rosacea-affected, and post-inflammatory skin. Designed for topical use with the WOW fusion® device or other microneedling and laser technologies.

CONTRAINDICATIONS

It must not be used on:

- Patients with active skin disease or infection
- Patients undergoing immunotherapy
- Patients with known hypersensitivity to any component
- High risk of keloid scarring
- High risk of post-inflammatory hyperpigmentation
- Pregnant or breastfeeding individuals
- Patients under 18 years of age

CAUTIONS

Caution must be taken with:

- Patients on anticoagulant therapy
- Multiple Sclerosis
- Lupus
- Uncontrolled diabetes
- Herpes Simplex outbreaks

PRECAUTIONS FOR USE

- No clinical data available regarding the use of PDRN EP:DS + B3 following other deep cosmetic topical treatments
- It is recommended to avoid makeup application for 4 hours post-treatment
- Avoid sun exposure and sunbeds for 4 weeks post-treatment
- Avoid saunas and steam rooms for 2 weeks post-treatment

POSSIBLE SIDE EFFECTS

- Mild local redness resolving within hours
- Itching
- Bruising
- Skin dryness
- Flakiness

If side effects persist beyond 3 days, patients should consult their practitioner who must report the case to Circa Skin Ltd or their authorised representatives.

WARNING

- Always check the expiry date before use
- Keep out of reach of children
- Store away from direct light
- Refrigerate after opening
- Use within 1 month of opening
